VA RE-ENTRY STUDENTS

Once a student is terminated for unsatisfactory progress, the following actions will be accomplished for re-entry:

- Student must be terminated for a period of 90 days before consideration for re-entry
- Student will submit a written request for re-entry
- The administration will evaluate student's written request and status; and determine whether the student has sufficient ability and potential to warrant re-entry
- If yes, the administration will provide the student 1) a letter of re-entry, 2) a contract for re-entry specifying hours of pursuit, and 3) notification that student is on probation for two months after re-entry
- If the student has not obtained standards of progress at the end of two months after re-entering the program, they will be terminated and will not receive future consideration for re-entry.
